We delivered the training in Silverton on May 7 – 11 or something close to that.

Hi, Steve.

Thanks, again, for chatting with us this morning. It was really helpful. I did have one question we didn't have time for. I thought I heard you say during our tour of the Upper Animas with BLM that you were planning HAZWOPER training in Silverton sometime this summer. Is that true, and if so, has it taken place? I was just wondering about the participation in the training if it was held.

Thanks!

Cynthia
